

FirstLease

Did you know that over 30 percent of all capital equipment in the United States is acquired through leasing? In fact, eight out of 10 companies lease their equipment. Leasing can make the difference between closing a deal today, or waiting for capital budget approval, or even losing the deal.

Digium has partnered with FirstLease, Inc to help you finance solutions for your U.S.-based customers.

FirstLease, Inc is a nationwide provider of financing for growing businesses, located in Fort Washington, Pa. and is a wholly owned subsidiary of Firstrust Bank, a \$2 billion privately held financial institution. They offer customers same-day approval for transactions up to \$250,000.

Their competitive advantage lies in their flexibility. Their highly qualified credit managers personally review each transaction, which means *there are no auto-declines*. Whether you have A, B, or C credit, they can structure a financing package that fits your needs and budget. They service a wide variety of industries, including construction, material handling, medical, court reporting, and office technology.
